

Nest monitoring data sheet

General information

Nest ID: \_\_\_\_\_ Species: \_\_\_\_\_ Patch ID: \_\_\_\_\_ Discovery date: \_\_\_\_\_  
(yyyy-mm-dd)

Discovery stage: \_\_\_\_\_ Camera or control? \_\_\_\_\_ Camera deployment date: \_\_\_\_\_  
(e.g., inactive, building, incubating, nestling) (yyyy-mm-dd)

Nest location

Height above ground: \_\_\_\_\_ meters Nesting substrate species: \_\_\_\_\_ GPS point name: \_\_\_\_\_

Description of nest location: \_\_\_\_\_

Nest visit information

| Date<br>(yyyy-mm-dd) | Time<br>(24:59) | Adult activity |          | Number of <b>host</b> eggs/young |               |               | Number of <b>Cowbird</b> eggs/young |               |               | Nest status | Young status | Observer<br>initials | Note # |

#### Adult activity

| Present |                         | Activity |                                        |
|---------|-------------------------|----------|----------------------------------------|
| N       | No adults seen or heard | BC       | Building nest, carrying nest materials |
| A       | Adult                   | FY       | Feeding young at nest                  |
| F       | Female                  | IC       | Incubating during check                |
| M       | Male                    | NV       | Near the nest, no vocalizations        |
| P       | Pair                    | AC       | Alarm calls near the nest              |
|         |                         | TS       | Territorial singing near the nest      |
|         |                         | FL       | Flushed                                |

#### Nest status

|    |                                         |
|----|-----------------------------------------|
| IN | Nest materials present, nest incomplete |
| CN | Nest structurally complete              |
| DN | Damaged nest                            |
| FN | Flattened nest with fecal matter        |
| RN | Nest disappeared for unknown reason     |

#### Young status

|    |                                                 |
|----|-------------------------------------------------|
| NO | No young present at nest                        |
| HY | At least 1 chick hatching or just emerged       |
| NY | Nestlings naked and pink, eyes closed           |
| PY | Wing feathers emerging, skin visible, eyes open |
| BY | Body feathers cover skin, stubby tail feathers  |
| VY | Vocal young, heard only                         |
